PURE COLD

cold recovery and cold
water therapy made easy

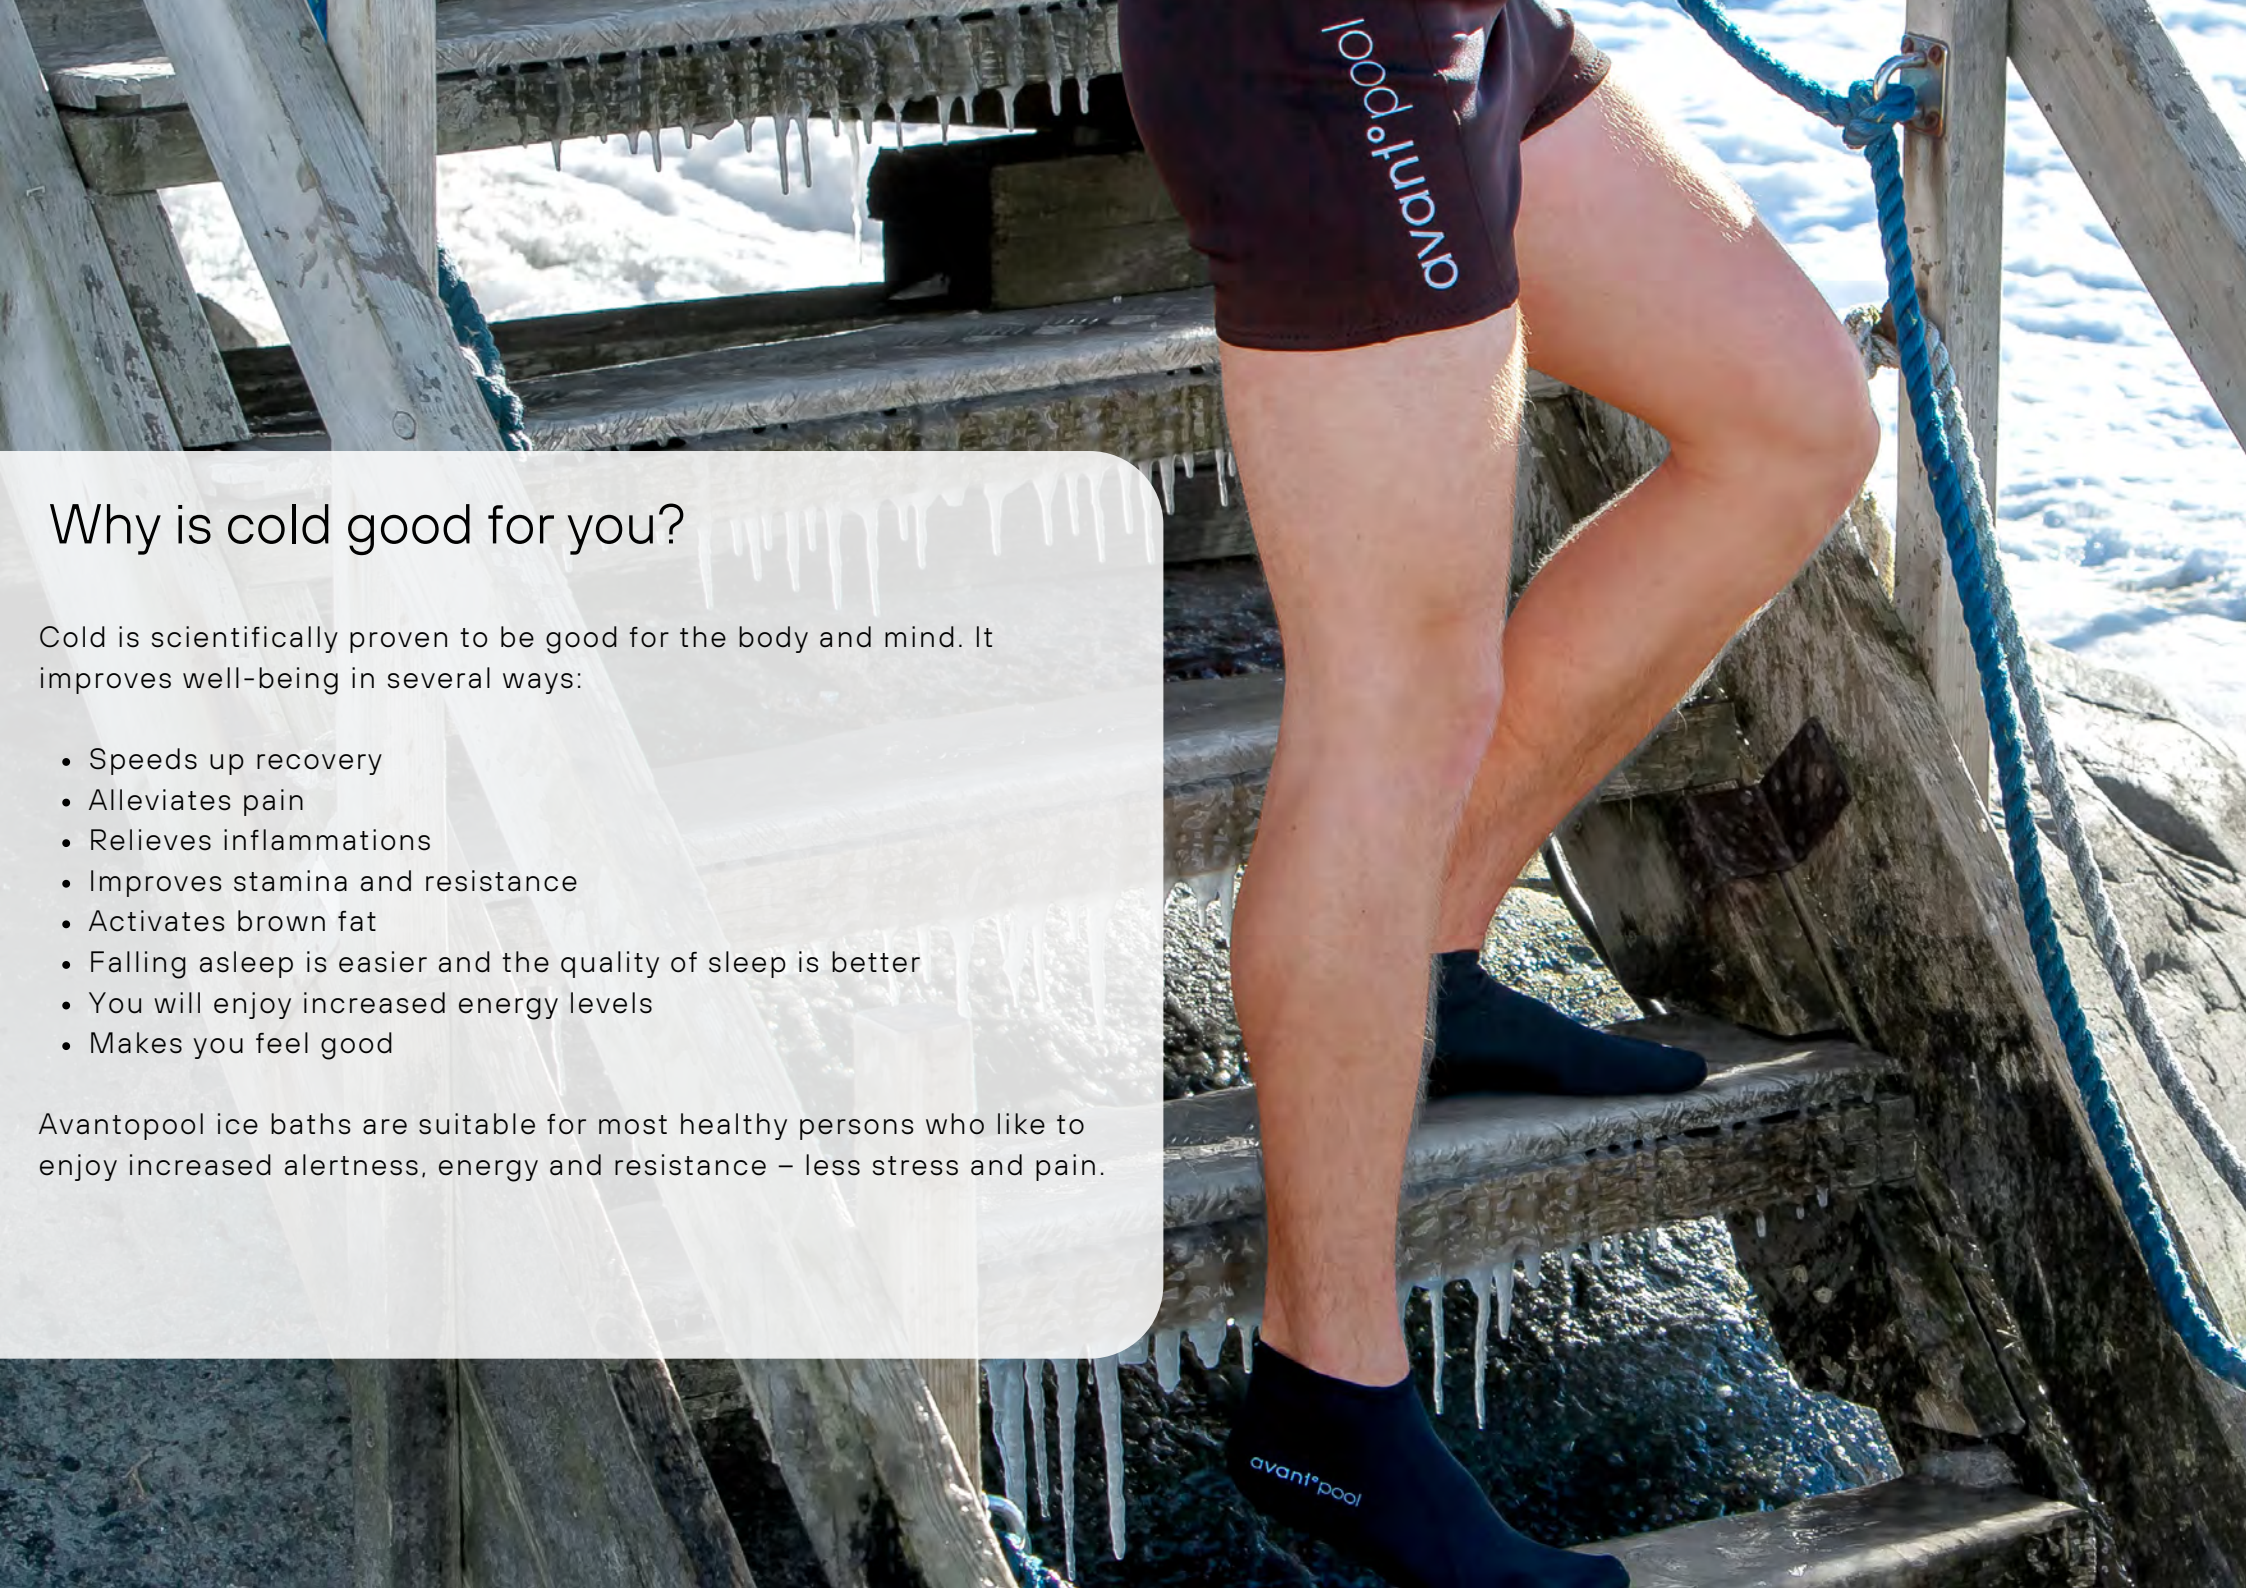

To whom?

Basically for everyone!

- Professional athletes
- Sports centers, clubs and academies
- Recovery centers
- Physiotherapy
- Fitness / exercise enthusiasts
- Sauna and spa concepts
- Private homes
- Workplaces / Occupational health
- Health clinics

*"The best cold
recovery for athletes"*

Henri Kontinen
Tennis professional

Why is cold good for you?

Cold is scientifically proven to be good for the body and mind. It improves well-being in several ways:

- Speeds up recovery
- Alleviates pain
- Relieves inflammations
- Improves stamina and resistance
- Activates brown fat
- Falling asleep is easier and the quality of sleep is better
- You will enjoy increased energy levels
- Makes you feel good

Avantopool ice baths are suitable for most healthy persons who like to enjoy increased alertness, energy and resistance – less stress and pain.

Avantopool Kinos

Kinos is a transportable pool for cold water therapy and professional level cold recovery – always ready for use.

- Continual water filtration and ozone disinfection ensure always clean water free of bacteria and viruses
- Wide temperature range, between +4°C to +38°C – suitable also for heat treatment
- Compact size - easy to transport and install almost anywhere
- Easy to use and maintain
- Controlled and safe immersion process
- No need for plumbing installation
- Avantopool Kinos - cold recovery and cold water therapy in clean water for gyms, sports teams, workplaces or even at your home

Details

Dimensions

Without stairs:
Length 1200 mm,
width 790 mm,
height 1050 mm

With stairs:
Length 1200/1540 mm,
width 790/1130 mm,
height 1220 mm

Capacity and weight

Empty 147 kg (with rails and stairs)
Full 450 kg
Capacity 300 l

Refrigerant

R290

Cooling/heating speed

approx. 4°C/h

Power consumption

Heating power 1,5 kW
Cooling power 0,7 kW
Approx. 5 kWh / day

Required power supply

220-240V, 50Hz

Avantopool Hanki

Hanki is a portable, easy-to-use cold recovery and cold water therapy pool with an external cooling & heating unit.

It is easy to place almost anywhere and doesn't require any special care other than regular water change.

The pool easily fits up to 3 persons standing or 1-2 people for a full body immersion (depending on the size of the persons).

- Portable and easy to use, move and maintain
- Compact size but still spacious
- Usually combined with external Cooling & Heating Unit and filtering package

Cooling &
Heating Unit

Hanki pool details

Dimensions, pool:

Length 120 cm (145,4 cm with step),
width 79 cm, height 100 cm

Dimensions, step:

Length 44 cm, width 47 cm,
height 45 cm

Material:

Polyethylene plastic,
2-layer polyurethane insulation

Color:

Black granite

Capacity:

in normal operation 320 - 380 l

Weight when empty:

Pool 39 kg, step 9 kg

Weight when filled:

370 - 420 kg

Pipe connections:

Quick connectors

Avantopool Kide

Kide is an inflatable, compact pool designed for professional and home use. Kide pool can be used almost anywhere and it travels easily in a carry bag. The pool fits up to two persons but is most comfortable for single person use.

Kide is made of durable fiberglass reinforced, skin-friendly PVC and is easy to keep clean. Together with the Avantopool heating & cooling unit you can enjoy professional level cold baths or relax in warm water.

To get the most out of your Kide pool, we recommend using it together with Avantopool Cooling & Heating Unit and external filtration system.

External Cooling & Heating Unit

Kide pool details

Dimensions:

External: 132 x 78 x 62 cm
Internal: 112 x 58 x 62 cm

Material:

PVC

Color:

Black

Weight when empty:

10 kg

Weight when filled:

275 kg

Pipe connections:

32mm quick connector

Capacity:

265 liters

Avantopool Cooling & Heating Unit

The external cooling & heating Unit is easy-to-use, especially with the Hanki and Kide pools. It can be connected to other water tanks up to 1000 liters as well. The hosing is equipped with 32mm quick connectors.

From the unit control panel the target water temperature can be adjusted between +4°C - +40°C. The control panel displays the actual water temperature as well as the set target temperature.

Features

- IPX4 classified – suitable for outdoor use
- Integrated circulation pump
- Digital control panel
- Cooling down to +4°C
- Heating up to +40°C
- WiFi control
- Easy 32mm quick connectors

Temp. range
+4°C - +40°C

Dimensions

Length 74 cm, width 37 cm,
height without wheels 49 cm /
with wheels 54 cm

Weight

42 kg

Temperature

+4°C - +40°C
